

Passive Fire Protection Engineer

THE ROLE

Tenmat are a leading global manufacturer in specialised passive fire protection products, supplying into markets throughout the world.

We are currently seeking a Passive Fire Protection Engineer to join our Fire Protection Team.

The position is a national role (UK / Ireland) with a flexibility on work arrangements depending on location (home / office / field based)

DUTIES OF ROLE

- Provide toolbox talks to demonstrate installation methods around passive fire protection on live projects, within external wall cladding systems.
- Inspect sites to ensure compliance with specifications and installation requirements including taking measurements, photographs and data capture, followed by site reports.
- Liaising with various stakeholder including contractors, designers, building control, fire engineers and end clients.
- Support the commercial team (sales / specification) in providing appropriate advice on Tenmat products.
- Support cross functional teams on new product introduction and product development.

EDUCATION/TRAINING & KNOWLEDGE/EXPERIENCE

- Fire industry recognised qualifications or relevant degree/HND, and fire industry membership such as IFE or similar.
- Experience of working within a construction industry, test laboratory and/or engineering environment.
- A good working knowledge of Approved Document B (Fire safety).
- Ideally you will have overseen fire protection related projects within various sectors and have knowledge of different construction methods.

PERSONAL ATTRIBUTES

- Excellent spoken and written communication skills.
- Technically and commercially aware
- Strong interpersonal skills capable of influencing clients
- Good organisational skills and the ability to understand detailed information.
- Technical expertise and practical experience with construction
- Ability to manage multiple projects.

BENEFITS

- Competitive salary
- Private medical scheme
- Generous holiday entitlement (33 days incl. bank holidays)
- Company bonus
- Car Allowance
- Subsidised canteen
- Pension contribution

ABOUT TENMAT

Tenmat is a leading manufacturer of advanced materials and components with outstanding mechanical and thermal properties for demanding industrial applications. The diversified product range includes thermoset composites for wear parts and bearings, engineering ceramics, high temperature resistant materials, passive fire protection solutions and functionally graded materials. Tenmat operates an ISO 9001:20015 Quality Management System for the design, development and manufacturing of specialized high performance engineering materials and components. Tenmat stands for innovation, safety products, commitment to our customers and the latest quality standards worldwide.

The Tenmat group is a multinational corporation with fully owned subsidiaries and presences in the United Kingdom, North America, France, Germany, Sweden and Italy, supported by a global network of vendors and distributors.

HOW DO I APPLY?
