

Quality Engineer (Fixed Term)

Reporting to the Quality Manager, the Quality Engineer will be responsible for actioning the “live” project plan in preparation for the move from our current location in Trafford Park to Irlam and Gloucester

- Liaising with all stakeholders within the different locations including internal teams, contractors, suppliers, external regulatory bodies, etc;
- The transfer of approvals from Trafford Park to Irlam and Trafford Park and Gloucester;
- Clear and concise documentation of process, actions taken and progress made;
- Providing regular feedback for progress;
- In conjunction with the Quality Manager ensuring the continuity of the QMS, including maintaining ISO 9001:2015 certification
- Ensure continued compliance to external approvals, throughout the transfer, maintaining certificates from various industry approval bodies. Host external audits if required;
- Ensuring that product quality and integrity is maintained at the transfer sites;

The minimum requirements are:

- At least two years previous experience in a similar role within a manufacturing environment
- Must have a full clean driving licence
- Ability to travel to different UK locations frequently

Personal Attributes:

- Excellent written and verbal communication skills
- Able to build relationships at all levels of the organisation and work as part of a team
- Able to organise own workload and manage time effectively
- Self-motivated
- Good at problem solving

If you are interested in any of the above role and feel you have the necessary skills/experience, please send a copy of your CV to: Rachel.edwards@tenmat.com
